- 6 terminals per zone
- Separate tamper and auxiliary supply per zone makes it faster, neater and easier to wire
- 64 event memory log stored in non-volatile memory
- 8 four digit access codes
- Zone soak timer
- Chime and Service timer warning
- 3 part-set
- Accepts from a 1.2 to 7Ah battery
- Easy to programme including pre-set options

## remote keypads

(LY68-020-66)

### Features

- Twin 7 segment display
- On-board programmable PA
- Up to 4 Remote keypads
- Illuminated keys
- Entry Exit alarm tones
- Silent part-set option

A stylish remote keypad for use with the Nexus 8 control panel. With the option of up to 4 keypads per system, the keypad provides flexibility to both the end-user and the installer. The silent part-set option allows the panel to be set at night without disturbing sleeping children.
