

Pioneer

DV-310-S

DVD Player with USB Input (Silver)

Slim, smart and elegant.

Watch movies, listen to music or browse your digital photos; without an invasion of hardware in your living room. The DV-310 is **just 49.5mm thin**.

Playing most disc formats, the DV-310 easily handles your MP3, WMA and iTunes (MPEG-4AAC) music; as well as DivX movie files. Simply **plug in your USB device** and enjoy the content. Or take a look at your **digital photographs** with the player's integrated JPEG photo viewer.

When you're watching a DVD, you will hear a deep, realistic 3D soundspace from just a single pair of stereo speakers thanks to the DV-310's **Virtual Surround Sound**. Frontal positioning, but all-round effect.

**VIRTUAL
SURROUND**

* This player is **also available in black**.
